HTML Assignment Instructions

Dear Students,

You are required to complete the following assignment **before the next class**. This assignment is **mandatory** and will help reinforce the concepts we have covered so far.

Assignment Objective:

Create an **HTML version of your CV/Resume**, exactly replicating the format shown in the reference image provided. The goal is to practice the HTML tags and formatting techniques we have learned up to **Chapter 4**.

Guidelines:

You must use **all** of the following HTML tags in your assignment:

- `<h1>` to `<h6>` (Headings)

- `<p>` (Paragraphs)

- `<b>`, `<strong>`, `<i>`, `<em>` (Bold and Italic text)

- `<abbr>` (Abbreviations)

- `<q>` (Short quotations)

- `<sup>`, `<sub>` (Superscript and Subscript)

- `<a>` (Hyperlinks)

- `<ul>`, `<ol>`, `<li>` (Lists – unordered and ordered)

Instructions:

- Try to **match the design** of the reference CV **as closely as possible** using only the tags taught.

- Ensure your code is **properly indented and readable**.

- Use appropriate tags for structure and meaning, not just for styling.

- Save your file with the name: `yourname_cv.html`

Note : This assignment will help build the foundation for your future web development projects. Please take it seriously and put in your best effort. **Best of luck!**
